Your Photoshoot

I want to ensure that you get the best outcome from your photoshoot and that we create images and pieces of art that you will genuinely cherish. There is the option to book purely the photoshoot experience and then have total flexibility to choose whatever images or products you would like at your viewing.

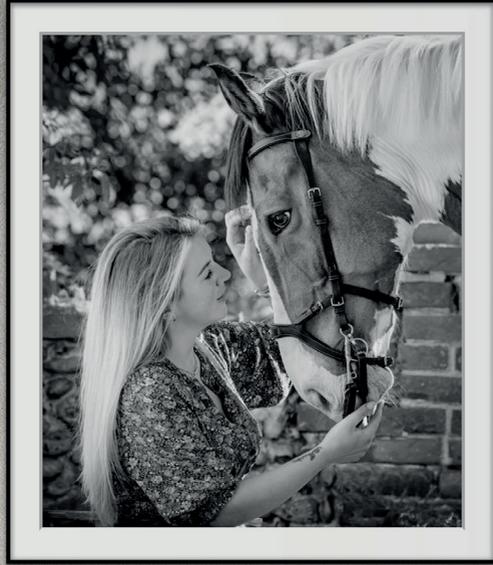

The Photoshoot Experience is £199

This is an enjoyable experience where you get to spend time with your horse. I allow time for at least 2-3 outfit changes and I am on hand for styling advice.

After the photoshoot, each image is individually retouched in my own style and we arrange a time for a private viewing of your images where you get to choose one high resolution digital for you to download, print, share online and keep forever. The option to add additional images and products is available after your session.

To add an additional horse is £50.

Alternatively you can choose in advance from one of my curated collections, based on my most popular choices. The advantage of choosing a collection in advance is that we can tailor the shoot to the artworks we want to create and as a result it is more cost effective if you purchase in advance.
